

ROCKEFELLER, MEXICO & SILVER

Presented August 2018
By Charles W.W. Savoie

I thought I'd toss out my middle initials which I nearly never use. The first W stands for Wilfred, a name I never use; it was part of my father's name and the second W stands for Walter, which was just an add on; I prefer to think "Wild West" would be the middle initials, as I always liked Western movies and TV series. John Wayne, Clint Eastwood, Chuck Connors in "The Rifleman," what's not to like? I don't know any of the other Charles Savoie characters on the Web. Savoie is a common name in French Quebec Canada, New England, French Louisiana and in provinces in the French Alps. Despite that my father grew up speaking French and English, my only other language is Spanish y lo hablo como el sobrino del Alcalde de Torreon.

David Rockefeller chaired the Council on Foreign Relations from 1970 to 1985 whereupon an understudy of his, Peter G. Peterson, took over the helm. Both men were Pilgrims Society members

(Peterson still as of 2014 info) and the CFR is the most important subsidiary group of this shadow organization that has literally thousands of tentacles. The CFR has exerted tremendous influence over Mexico for many years through banking, diplomatic, mining and industrial plus export-import trade circles. This influence has a great deal to do with the near perpetual bearish silver price cap with the Bank of Mexico and “won’t complain” silver mining companies involved. Rocky and his pals saw for many years that his end would arrive and that it finally came changes nothing. The fact that David was for many years a collaborator with the British Royal family has been virtually an invisible detail. His family of course still has Pilgrims Society representation today including through a member of the Pillsbury family so; careful which baking mixes you buy!

Steve St. Angelo recently [wrote](#) about oil resource depletion dragging down PEMEX, the government run oil company of Mexico. I thought surely he'd mention how that sharply increases the political risk of foreign owned PM mines to be grabbed by Mexico; they'd be very tempted to offset their sagging oil revenues by taking mines especially in a monster price blast off. Or they could zoom the royalties. If you were in their place you'd be thinking about it. This would especially hit hard mining concerns who are 100% in Mexico.

<https://commodityadnetwork.com/> is a project St. Angelo has; and describes it as "A disruptive ad network of creative minds who speak out against the powers that be."

The powers that be? Huh? How can that not imply a conspiracy against the common man? And if there is a conspiracy against the common man,

how could it not also involve destruction of the common man's finances? So compare this statement of Steve's about "the powers that be" to his hugely disappointing statement that Steve made on December 29, 2017 <https://srsroccoreport.com/investor-fundamentally-changed-silver-market/> when he wrote---

"The reason the United States and other countries stopped producing official silver coinage wasn't due to any monetary conspiracy; rather it was based on a straightforward problem; supply versus demand. Because industrial silver consumption had skyrocketed after World War 2, the silver market would have suffered deficits if the U.S. Treasury didn't sell silver into the market. **It was quite simple; there just wasn't enough silver to go around. So, governments started to reduce, then eliminate silver from their coinage in the 1960's."**

I pointed out before that Steve committed a serious omission; he neglected to say there wasn't enough silver to go around "**AT THOSE PRICES.**" Let prices rise; more will be produced, more will be sold from hoards and more imported silver will

come in. TPTB wanted the public on depreciating money so, silver had to go just to industry! I am not tossing darts at a person, but at a wrong idea. He once gave me a tip about presentations that I accepted.

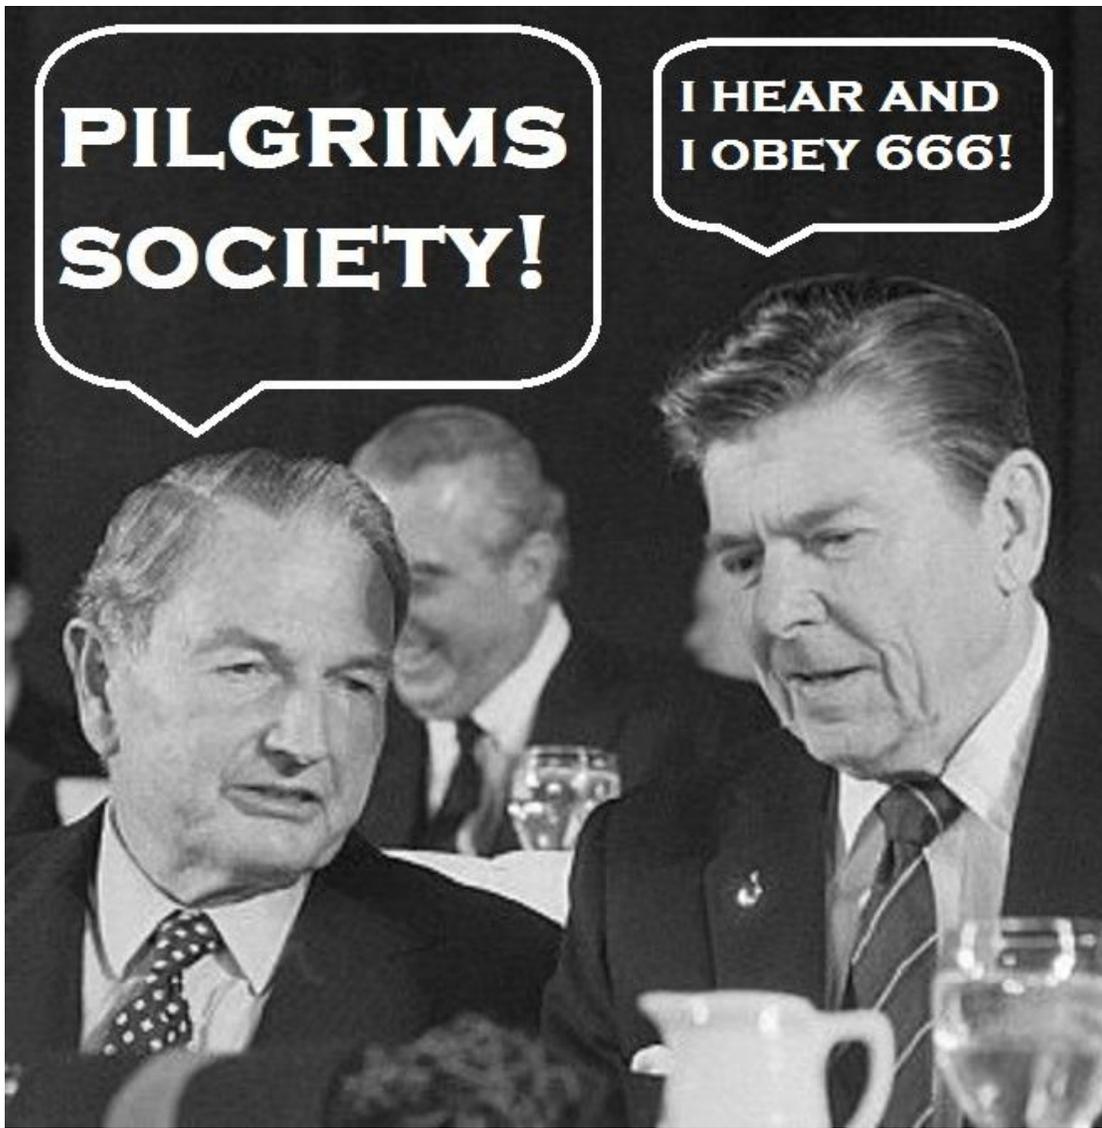

So on the one hand Steve says there's no conspiracy, then elsewhere he speaks of "the powers that be," and up until several years ago, gave some coverage to my work, and you won't find anyone more definite in declaring "conspiracy against the common man and his money" than me! Famously, deceased David Rockefeller himself admitted to a globalist conspiracy, and Chase Bank has attacked silver money for generations---from page 405 of David's "Memoirs" (2002) ---

"Some even believe we (Rockefeller family) are part of a secret cabal working against the best interests of the United States, characterizing my family and me as 'internationalists' and of conspiring with others around the world to build a more integrated global political and economic structure - One World, if you will. If that's the charge, I stand guilty, and I am proud of it."

Here is a grand admission that the common man is conspired against; and to suppress him, you must cheapen his currency! Seen at <https://www.business-gazeta.ru/article/340466> ---

Rockefeller (ghoul) had 8 hearts in his 101 years!

“PILL-GRAMS”

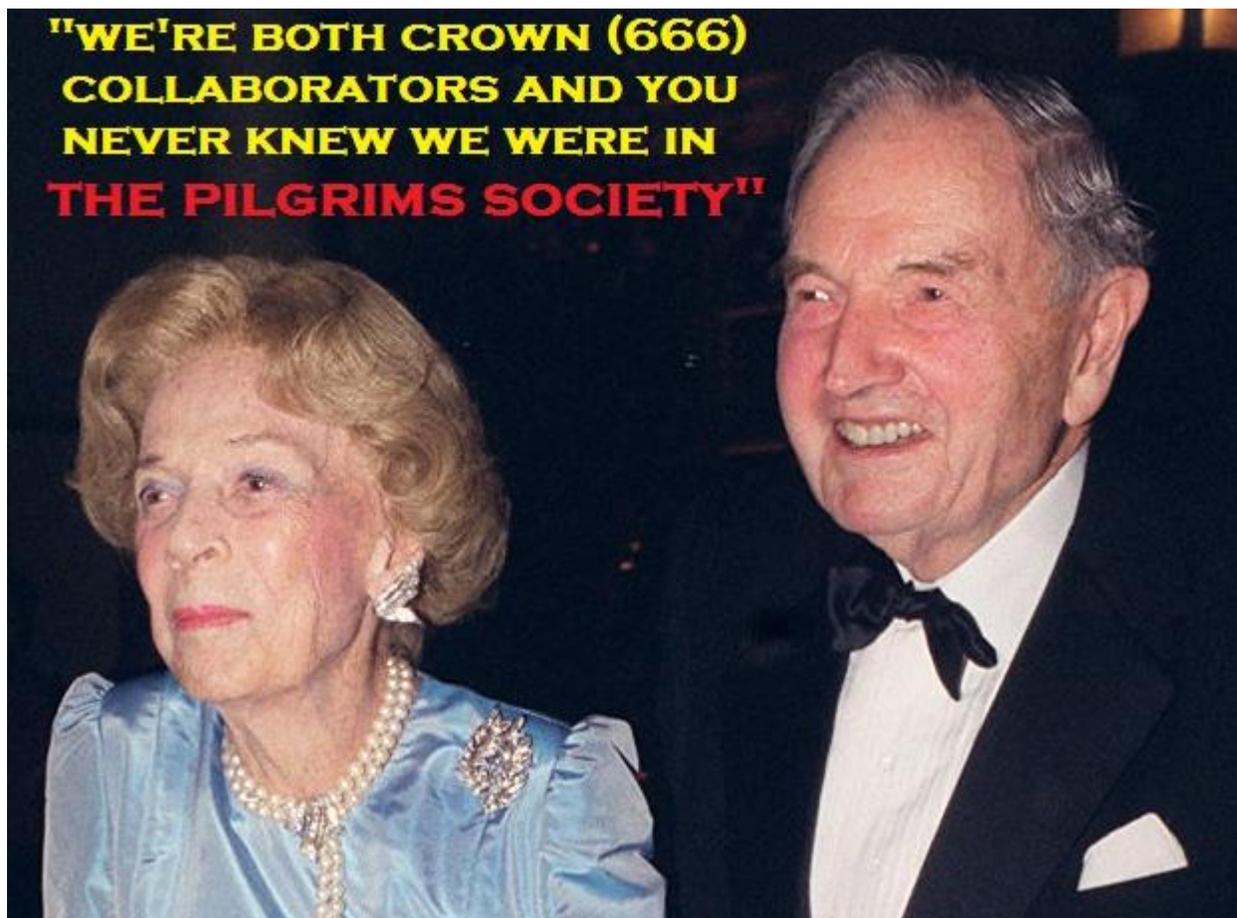

The Pilgrims Society is the ONLY group David was a member of which he omitted from his Memoirs; and from all his "Who's Who in America" entries! He's pinpointed as a member from 1948 to 1995; and maybe a few years earlier (to 1946) and maybe a few years later (to 1999); those rosters are not in my grasp. On leaving active membership due to advancing age, you can be certain he had others representing him and his family's interests like this one [https://littlesis.org/person/45670-Marnie S Pillsbury](https://littlesis.org/person/45670-Marnie_S_Pillsbury)

Brooke Astor, who became one of the few women members of The Pilgrims Society, was a

Rockefeller University trustee. She lived to be 105! She was the widow of Pilgrims Society member Vincent Astor, who was a Chase National Bank director and related by marriage to gold and silver thief FDR! Vincent, quite predictably an Episcopalian, was on many large boards including American Express, Western Union, Illinois Central Railway, Great Northern Railway, United States Trust Company, City & Suburban Homes, Atlantic Fruit & Sugar; member The Pilgrims, Jekyll Island Club, Royal Thames Yacht; National Institute of Social Sciences (this is where The Pilgrims Society makes eugenics plans for Americans becoming Crown serfs); see page 203, 1930-1931 on Astor "Who's Who in America." In February 1933, Franklin Roosevelt took an eleven day cruise on Vincent [Astor's](#) 264 foot yacht "Nourmahal" starting February 4, 1933. On March 4, 1933, FDR took office. On April 5, 1933, FDR seized gold from Americans (EO 6102). Yes! This was due to his association with Vincent Astor, descended from John Jacob Astor, "landlord of New York," who was the main power in the second United States Bank, which was a gold and silver stealing entity! Persons wanting note conversion into specie were

required to get conversion at the branch most distant from the issuing branch, and that meant many hundreds of miles of journey! The Pilgrims Society uses government power to prevent capital formation outside its influence circles; just like they ruined Jack Northrop of Northrop Aviation, Howard Hughes of Trans World Airlines and many other wealthy nonmembers. Vincent Astor founded Newsweek; control later passed to Pilgrims Society member Paul Mellon, son of silver suppressor Andrew Mellon (Pilgrims).

Brooke Astor [descended](#) from a rear admiral and a major general.

Steve admitted

“Charles is the only individual that I know who has put together the TIMELINE and the WHO’S WHO on Silver manipulation and suppressing over the past several hundred years.”

Please let’s be consistent. Stop attempts to make ourselves acceptable to the most people when that acceptance depends on abandoning reality. Did Steve decide to step back from acknowledging a monetary conspiracy against PM’s, thinking that would reel in more Patreon supporters? Please let’s not straddle fences nor wear a second face like the mythical Janus. No compromising. Monetary metals have been removed from the currency of the common man so he may be made progressively more powerless.

Mexico has never stopped simmering over losing almost one million square miles of land to the United States over the Mexican-American War that ended in 1847 with a military occupation of Mexico City. If I can think about it, Mexico sure can too. And I have mining investments there. Be mindful of all possibilities. Now with Trump not relenting on a border wall and sending troops to patrol the border states, Mexico will feel even more aggrieved. No need to fret me giving them ideas; they have all possible ideas under review in every legislative session. However, no! I am not saying mining investments by Canadian and American mining companies in Mexico are doomed. America has taken in megamillions of Mexicans as a pressure valve for Mexico, and that fact should be

used as a big negotiating point to tell Mexico that nationalization of foreign owned mines shouldn't take place. Regardless you must watch after hour announcements every evening as that's usually when a company releases bad news; be ready to sell and more seasoned investors will also go short.

Luis Rubio is listed as a Trilateralist. He's also president of the Mexican Council on Foreign Relations---where they speak of "New world order"

The dominant investor in Fresnillo, Alberto Bailleres Gonzales, which is the world's biggest silver producer, is an [official](#) of the World Economic Forum, [funded](#) in part by JP Morgan Chase Bank, long known to be associated with the Rockefellers (but others also---Astors, Vanderbilts, Drexels, Mosbachers, Dorrances, Berwinds, Beekmans, the silver using Du Ponts and various other Pilgrims Society family groups!) Barclays, HSBC, Morgan Stanley, Goldman Sachs and other precious metals suppressing entities, always Pilgrims Society represented, also fund the WEF---

“All told, the various sales of The Peggy and David Rockefeller Collection resulted in more than \$835.1 million in sales, which Christie’s said is the highest total for a private collection at auction.”

“A silver ice pail, purchased by Rockefeller in Mexico in 1995, was estimated to sell from \$800 to \$1,200. After furious bidding by phone, internet, and in the room, it hammered to a man sitting at the rear of the auction house. With premium, its total was a stunning \$50,000.”

In 1965 David [founded](#) The Americas Society and the Council of the Americas---

AS/COA HQ is at 680 Park Avenue known as the Percy Rivington Pyne II House, named for a very wealthy Pilgrims Society member (1857-1929) whose maternal grandfather, Moses Taylor, founded First National City Bank of New York, today known as the behemoth Citigroup! Pyne II, also an important land and railroad heir, married into the old-line colonial Howland family, whose genealogy remains sub rosa on the USA financial

and influence scene. Eben W. Pyne (1917-2007) was a longtime Pilgrims member associated with the Citibank and other interests in railroads, power generation and more. The Center for Inter-American Relations merged into the Americas Society in 1985.

The Pilgrims 1920 shows---

Proctor, decorated by the Emperor of Japan and a delegate to the 1908 Republican National Convention, was the wealthiest man in the Utica, New York area and had considerable prominent ancestry. Seward Prosser was head of Bankers Trust Company of New York and was a director of General Electric, International Nickel Company, Kennecott Copper, Texas & Pacific Railway and

others. These three were all Episcopalians (the DOMINANT USA money religion) ---

President Johnson, honorary president of The Pilgrims USA at the time David was meddling in Mexican, Central and South American affairs, was very "in" with David, who was a member by the 1948 leaked roster; at right see Dean Rusk, who became president of the Rockefeller Foundation. Rusk was Secretary of State, a Rhodes Scholar and a Pilgrims member. Recall that LBJ was hot to eliminate silver coinage from our money system; his nephew as of 2014 info is on The Pilgrims USA executive committee (Philip Bobbitt) ---

Discovered to have been on Pilgrims Society rosters from 1948 to 1995 (maybe as late as 2000), this is the ONLY globalist group Rockefeller never mentioned in his "Memoirs" (2002) though he did mention Bilderberg which is just a way for Pilgrims Society influence to be extended over Europe, the same way they used the Trilaterals to extend influence over Japan, which is capable of becoming a counterweight to China---

SSR Mining still owns what may be the second largest undeveloped silver site in Mexico, called Pitarilla with close to 500MOZ. Queen Elizabeth II is an SSR Mining shareholder.

Note! None of the content at my sites is considered worthwhile by any of the You Tube

interview hosts like Mister Greg Hunter, Wall Street for Main Street and many others including a big one that had me on one time only; Andy Hoffman selling bullion was on over sixty times however.

Is it because they don't have a way to make money by having me on, since my work is all free to the public and they're running media businesses but if they admitted this, donations would fall off? How likely is it that 30 interviewers set out to supply all free promotional services to people marketing things for purchase to audiences? Is there not any place in this world for someone who wants only to offer free information as a public service? Note that I was on the biggest of these channels one time only, but Andy Hoffman was on at least 62 times! I submit the difference is Hoffman had things to sell and I was only giving out all free details! The famous interviewer [said](#) on 1/4/2015 "no one's done more or better research than Charles Savoie" but as I'm not selling things, I get no interview coverage! As always, actions speak louder than words! If the interview isn't available contact me through Silver Stealers and I'll send you a WAV file showing what he said about me---then, interview coverage next

to zero! The pattern is firm; guests must be selling things for purchase to audiences to get interviews! Truth tellers not offering things like paid newsletter subscriptions, bullion, promoting mining shares or other are thrown under the freight train, not just under the bus!
